

SHEFFIELD • ENGLAND

Machine Knife & Industrial Blade Manufacturer

"Razor sharp since 1910"

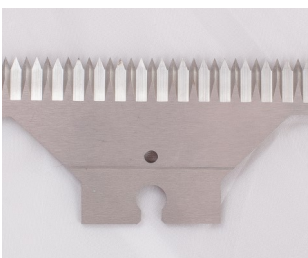

Vertical Form Fill and Seal (VFFS) knives

Industry uses gravity and heat to pack a wide range of products ranging from candy to hardware. The process is called Vertical Form Fill and Seal (VFFS) and relies on toothed knives to separate the gravity fed bags after sealing.

Durham-Duplex specialise in manufacturing all types of toothed knives including those for VFFS offering increased life and exactly what the customer requires. Variations might include:

- Apex
- Different size teeth
- PVD coating
- Tear notch
- Pointed or scallop
- Brass lugs
- Tiger teeth
- Relieving bevels
- Alternate tooth

For more information a quotation please contact the Sales Team with the machine type, dimensions and ideally a sample.
